Now, Heterosexuals are in the Closet

April 15, 2018

by Henry Makow Ph.D.

(Updated Nov 27, 2008)

Although 97% of the population is not gay, there is relatively little cultural support for heterosexual institutions (family, motherhood, fatherhood); roles (masculinity and femininity); and life events (courtship, marriage, birth and child rearing.)

Although building a strong family is probably the purpose of life and key to happiness for most, this knowledge is kept under wraps. Millions of dollars are spent to make women find careers but not a dime to become mothers. On the contrary, women who devote their lives to family are criticized.

If you search "heterosexual" in Google, you will get 16 million citations. Search "homosexual" and you get more than 20 million citations, pretty good for 3% of the population. ("Lesbian" got 10 million.)

Per capita "homosexual" received 100 times the citations "heterosexual" got. "Homosexuality" (10.7 million citations) got roughly 11 times the citations of "heterosexuality" (990,000.) Per capita, homosexuality got 3500 times more citations than "heterosexuality."

The fact that the word "heterosexuality" is in rare use is a shocking illustration of the cultural vacuum the non-gay majority inhabits. Our majority "default" status doesn't explain it. In terms of cultural support, non-gays are being starved or as I will suggest later, poisoned.

Another example. There are 21 times as many used books listed with the Advanced Booksellers Exchange under the keyword "homosexuality" as "heterosexuality" (24233 to 1154). Per cap this means there are 6750 references to homosexuality for every one to heterosexuality .

Heterosexuals are being brainwashed to function "on the quiet," "out of the public view," so that we don't "offend" our gay brothers and sisters. There

are exceptions but generally speaking our lifestyle and rituals are not celebrated. Instead they are portrayed in a jaundiced way.

On the other hand, homosexual behavior is portrayed as cool and trendy. [Kate Perry's "I Kissed a Girl"](https://www.youtube.com/watch?v=Hf8YZZS8QoI) (<https://www.youtube.com/watch?v=Hf8YZZS8QoI>) got more than a million views on YouTube.

Certainly, there is an obsession with male-female sex but mostly in homosexual terms, i.e. promiscuous and anonymous. Heterosexuals are being turned into homosexuals in the sense of being unable to establish a permanent bond with the opposite sex.

Heterosexuality is the basis of the natural life-cycle; it is not a "sexual preference." Non-gays, especially women, are naturally monogamous because heterosexuality ultimately is about procreation.

Heterosexual norms and institutions are routinely ridiculed and affronted in the mass media.

For example, in opening scene of the hit movie, *American Wedding*, (2003) which is aimed at impressionable teenagers, the future bride performs fellatio on the groom from under a table in a crowded restaurant.

At the wedding reception the groom's unruly friend accidentally has sex with the groom's *grandmother* in a dark closet. He thought he was making it with the bride's sluttish sister. The grandmother is so satisfied that she removes her objection to her grandson marrying a *shiksa*. In the final scene, another friend performs cunnilingus on the unruly friend's mother in a bubble bath.

This cultural assault on heterosexual norms is part of a long-term program by the Masonic Jewish financial elite to decrease population, destroy the family and destabilize society.

Far-fetched you say?

The Rockefeller Foundation is funding this campaign. Type in Google "Rockefeller Foundation" and "Women's Studies" and you will get 136,000 entries, many acknowledging support. Type in RF and "homosexual" and you will get 221,000 entries. Type in RF and "heterosexual" and you get only 11,700 entries, mostly in reference to their promotion of homosexuality.

The Rockefeller Foundation is on the vanguard of the elite's efforts to breed a slave race. For almost a century, it has funded research and lobbying designed to control population (the pill, abortion) separate sex from procreation (e.g. the "Sexual Revolution," The Kinsey Report) and destroy the nuclear family.

It has funded the eugenics movement worldwide including Dr. Josef Mengele's experiments on live concentration camp inmates. Ladies, *these* are the folks who are bringing you feminism. See [Rockefeller, Nazis, The UN,](#)

& Genocide (<http://educate-yourself.org/cn/genociderockefeller nazis2apr03.shtml>).

The Rockefeller Foundation's agenda is reflected in government, education and the media. It doesn't matter which party you vote for, which TV network you watch, which university you attend. The agenda is the same: the New World Order, not-so-friendly fascism run by the London-based cartel of cartels and their New York branch office.

I have written more than two dozen articles (<https://www.cruelhoax.ca/#top>) about how heterosexuality works. (See "Cruel Hoax") They resound with many people. Agree or disagree, I haven't had a single interview or mention in the mainstream media. This is not sour grapes. It merely illustrates that our "free and open" society is a fraud. We have freedom of speech. Being heard is another matter.

It is a misunderstanding to think Communism is dead. Communism was always an instrument of the New World Order and still is. See "Wall Street's Utopian Hoax:" (<https://www.savethemales.ca/160303.html>) Communism and the New World Order."

Communism takes many forms, all designed to advance the rule of the central banking cartel by infiltrating and subverting Western culture and institutions. Feminism is designed to destroy the family (a long-time Communist goal (<https://www.savethemales.ca/000185.html>)) thereby creating docile and facile people.

"Women's Studies" which originated in Communist Training Schools (<https://www.savethemales.ca/000180.html>), is devoted to the indoctrination and psychological neutering of young women at university. They learn that men ("the patriarchy") are the cause of the world's problems. Gender roles and family are social inventions to oppress women. They devote their few precious years of fertility to starting a career instead of a family.

From "Women's Studies" feminist militants fan out to all departments of university and society to act as dreary Rockefeller "change agents" and Commissars. They demand that the record of civilization be recast in terms of women's oppression and research and policy conform to feminist diktat. See "Remove Feminist Professors" (<https://www.savethemales.ca/191201.html>).

I was expelled from the University of Winnipeg for teaching the work of an unrepentant heterosexual D.H. Lawrence. Meanwhile, two lesbian instructors who showed lesbian porn to high school girls at summer school and told them to use zucchini to satisfy their sexual needs are still teaching. See "Give Back the University of Winnipeg" (<https://www.savethemales.ca/uw/index.html>).

I urge you to read Dr. Charles Socarides' book "*Homosexuality: A Freedom Too Far*" to understand the true nature of homosexuality and the insidious campaign to mainstream it. As a psychiatrist, he treated homosexuals for 40

years. See also "Is this Gay Behavior Sick?" (<https://www.savethemales.ca/201101.html>).

The cry of "equality," "tolerance" and "diversity" is the classic underhanded Masonic Jewish Communist- elite method of subverting society. They champion some minority whom they portray as victims. They divide and conquer, putting their minority agents in power. They call this "progress" when in fact it is social disintegration and tyranny.

Their claim to champion "equality" is belied by the fact that their proteges far outnumber anyone else per capita. This is about power not justice.

In today's context, "tolerance" etc. really means non-gays must embrace homosexual behavior. This is also seen in their attempt to force schools (<http://www.narth.com/docs/makingsafe.html>) to adopt "gay friendly" values.

Resistors are typically accused of "hatred" and "intolerance." There is a clear distinction between accepting differences without rancor and not wanting to adopt those differences yourself or to see society subverted.

The continuing assault on heterosexuals is seen in the demand for same sex marriage which is really about redefining and destroying marriage. Few gays want to marry. (https://www.savethemales.ca/few_gays_opt_to_marry.html).

Gay adoptions are criminal. Heterosexual children need heterosexual models. So is the policy of Big Brothers to allow gays to mentor fatherless boys (<http://www.narth.com/docs/mentors.html>). They don't let straight men mentor teenage girls.

Homosexuality is a developmental disorder. The elite's policy is to use it to subvert heterosexuality. I elaborate here (<https://www.savethemales.ca/000165.html>).

In conclusion, our political and cultural leaders are sell-outs and frauds that have embraced a collective death wish for society. They think they have sold out to "the corporations." But the corporations mostly belong to one interlocking cartel. This is controlled by people who actually believe in the Occult. Their agenda is to subvert Western Civilization and create a world dictatorship dedicated to Lucifer.

The promotion of homosexuality is designed to weaken us so we will submit to this tyranny. This is behind the lack of cultural support for heterosexuals.

We live in a world where only minorities have identity to undermine the collective interests of the majority. In the Protocols, the author writes, "we shall undermine all collective forces except our own."

We can resist by reaffirming the traditional family and the elements necessary to make it strong. The most important ingredient is strong responsible male leadership and willing resourceful female collaboration and

love.
